

pdkio™

---

**The Only True Cloud  
Access Solution**

## Flexible Access Control

PDK provides a variety of intelligent Door Controllers that allow you to customize your solution to meet your specific needs. Maximize installation savings by using all wimac™ (wireless mesh access control) controllers or combine with network controllers to leverage existing networks.

**wimac™**

- Up to 1 mile line of sight wireless range
- Average 450' indoor wireless range
- Smart self-healing mesh network
- Government grade AES encryption
- Up to 1,000 connected io devices
- Combine with network/PoE controllers

### **Network Connection**

- Use existing or isolated networks
- Ultra low bandwidth consumption
- Optional PoE on select io controllers
- Use gateway io to expand wireless coverage
- Combine with wimac™ wireless controllers

**pdk.io™**

- Mobile device setup and configuration
- Anytime/Anywhere mobile management
- Real-time feature updates
- Configurable email and text alerts
- Six month data protection backup

### **Partners and API Integrations**

By teaming up with industry leading manufacturers, we create the perfect security ecosystem. For a list of integration partners visit: [go.prodatakey.com/partners](https://go.prodatakey.com/partners)

## The pdk io Product Line

Intelligent io controllers provide flexible communication methods through wimac™ wireless, networked and PoE connectivity giving you the flexibility to design to any application.

### cloudnode

- Master Panel
- Built-in single io door controller
- Cloud connectivity and backup
- Connect up to 1,000 io devices

### singleio

- Mounts at the door
- Input: 12-24 AC/DC
- Output: 1.5 Amp
- Read in/out, DPS, REX
- Primary/Aux relays
- Power/Comm supervision

### eightio

- 8 doors or 10 elevator floors
- Takeover/Upgrade legacy systems
- Flexible power input
- Two aux relays

## Seamless Configuration and Control

Streamline the entire programming process with full configuration from your mobile device. Before closing up the ceiling tile, know the door is functioning properly. Streamlined mobile programming is one feature that defines us, an efficient install is what defines you.

### Real-Time Functionality and Alerts

Receive instant email and text alerts for complete control and security. Through pdk.io, real-time alerts update you on AC Power Fail, Battery Health, Door Status, and more. Information at your fingertips from your mobile device or sitting at your computer.

### Any Device, Anytime, Anywhere

Experience a true cloud environment through any web enabled device with pdk.io. Management and configuration have never been easier with this truly immersive and responsive platform. Now you are in control, whether at the office, off-site, or on vacation, we put full configuration and management in the palm of your hand.

## Want to Learn More?

We provide an entire suite of live online trainings to bring your organization up to speed. Each training is customized to the audience, whether training your sales or installation teams, we provide the live trainings to meet your needs.

### **Free Introduction Webinar**

This quick intro to pdk io will cover product lineup, features, advantages and benefits. Discover how PDK can save you up to 75% on installation costs along with overall lowest cost of ownership. Win more jobs and make more money with PDK.

**Register:** [go.prodatakey.com/intro](https://go.prodatakey.com/intro)

**Time:** 30 minutes

### **Sales Training**

Learn how to survey, spec, and bid the full line of pdk io products. Experience real installation applications and understand how wireless and network platforms can benefit your business. Learn how to setup an effective wireless mesh network and test signal strength.

**Register:** [go.prodatakey.com/sales](https://go.prodatakey.com/sales)

**Time:** 90 minutes

**CEU CREDITS #15-4469**

### **Tech Training**

This hands on live web training will cover installation and support of the pdk io platform. Receive a complete one door system which includes a reader, DPS and key fob. Learn how to setup a pdk.io account, program, wire and test the complete system. Keep the equipment to use on your first job.

**Register:** [go.prodatakey.com/technical](https://go.prodatakey.com/technical)

**Time:** 4 hours

**CEU CREDITS #15-4471**
